How to Think Like Leonardo da Vinci

What if you could call on history's greatest genius, Leonardo da Vinci, to be your personal mentor in cultivating your ability to think creatively, learn faster and lead change?

- Learn 7 essential principles for a more creative life.
- Measurably improve memory and problem solving ability
- Apply the principles to generate greater creativity and innovation in the workplace.

This dynamic, highly-interactive program brings da Vinci's genius to life through fascinating biographical and historical information, setting the stage for an introduction to seven principles for thinking "a la Leonardo." Participants are then guided to apply the principles, through a proven series of practical exercises, to your organization's greatest challenges.

The da Vinci principles are:

- Curiosità – An insatiable quest for knowledge and continuous improvement
- Dimostrazione – Learning from experience
- Sensazione – Sharpening the senses
- Sfumato – Managing ambiguity and change
- Arte/Scienza – Whole-brain thinking
- Corporalità – Body-mind fitness
- Connessione – Systems thinking

Leonardo invented the parachute before anyone could fly! Imagine what your organization could accomplish with that kind of innovative thinking.

"By capturing the very essence of Da Vinci's life and genius – the seemingly perfect integration of mind, body, spirit and soul – Michael Gelb guides us in the discovery and understanding of the boundlessness of our own human potential."

Innovate Like Edison: The 5-Step System for Breakthrough Business Success

Leonardo was probably the most creative person who ever lived but Thomas Edison is history's greatest practical innovator. Beyond his invention of the phonograph, motion pictures and a system to light the world, Edison invented the rigorous, disciplined process of innovation.

- Learn the 5 essential competencies of innovation
- Apply Edison's strategies for setting and achieving goals
- Develop "Innovation Literacy" to drive innovation

Edison understood that personal success and organizational innovation go hand-in-hand. Personal success requires you to learn how to think like an innovator; and, for your organization to be successful, innovation is now more important than ever.

This program introduces Edison's Five Competencies of Innovation™. They are:

- 1. Solution-Centered Mindset
- 2. Kaleidoscopic Thinking
- 3. Full-Spectrum Engagement
- 4. Master Mind Collaboration
- 5. Super-Value Creation

Each competency will be brought to life with specific, practical "take-home" applications.
