- He's the author of the published book "The Heretic - Daily Therapeutics for Entrepreneurs"
- Pascal loves to work with changemakers who want to, and can, make things better

---

Pascal is Co-Founder (and enfant terrible) at radical Ventures and Singularity University's Chair for Entrepreneurship & Open Innovation. His work focuses on the intersection of technology, global impact, and culture; inspiring, educating and empowering entrepreneurs, corporate irritants and change makers to tackle the most intractable problems of our time.

He has spent his career pushing the boundaries of technology and passionately believes it can profoundly impact the betterment of humankind. He got started on the net before there was a web browser, founded a series of technology startups, led eBay's Platform Solutions Group in Europe, launched a consulting firm helping entrepreneurs with their strategy & operations, and invested into early-stage tech startups. Pascal led Mozilla's Open Innovation Lab, created Mozilla's accelerator program WebFWD, and headed up Mozilla's Office of the Chair. As Principal at Google.org, he invested into social impact organizations around the globe. Most recently he built Singularity University's startup programs including the SU Accelerator and Venture Fund. Further, he founded the nonprofit organizations Mentor for Good and The Coaching Fellowship; the "GyShiDo" (Get Your S%#& Done) movement and publishes the opinionated newsletter, "The Heretic", which is read by tens of thousands of change-makers globally. He's the author of the published book "The Heretic - Daily Therapeutics for Entrepreneurs".

Pascal frequently speaks and writes about the magic and potential which happens at the intersection of technology, culture & global impact. He is also a trained Co-Active executive coach working with clients on achieving their full leadership potential. Most of all – Pascal loves to work with changemakers who want to, and can, make things better.

PROGRAMAS

Pascal Finette is a globally-renowned and acclaimed public speaker, covering topics from digitization, technology trends, organizational and cultural transformation, new business models, decentralized innovation, leadership, and entrepreneurship, in formats ranging from high-profile keynotes to workshops and executive roundtables.

Anchored in more than twenty years of experience in the technology industry, he has helped thousands of clients see the future of exponential technology, identify new oppor-tunities and develop successful disruptive business strategies. As an innovative and impactful keynote speaker, Pascal will bring this expertise to your audience, blending fron-tier technologies, and thought-provoking knowledge with deeply engaging, refreshingly honest, and highly motivating presentations.

Thriving in Exponential Times: Understanding how tomorrow will be different than today and why that matters more than you know.

The world is changing faster than ever and the future will be here before you know it. To survive, it’s not enough to know it’s coming. You have to be able to imagine it. You’ll learn about exponential technologies, their impact on the world and how to capitalize on the change we’re all experiencing by thinking beyond it. Because if you only set your sights on what’s coming next, you’re already too late.

Decentralized Innovation. New Paradigms for an Exponential World.

In a world of accelerating change, where business models get disrupted daily, and your competition looks nothing like it used to, how do you not only stay relevant but leapfrog

forward? The future of innovation today belongs to the crowd who can outperform and outcompete closed systems. You will learn from first-hand experience how to harness the power of decentralized ideas, resources, and skills; how to bridge untapped geographies and leverage innovation at the edges.

The Future (of) Organization(s). A Radical Toolbox for an Exponential Future.

While technologies are maturing exponentially, organizational structures and processes remain stubbornly linear. Yesterday's best-practices – like the Five-Year-Plan or Innovation Funnel – are not sufficient to navigate today's fast-paced, tech-driven world. Explore the groundbreaking new Seven-Layer model which describes and provides actionable insights into the makeup of the future organization. Learn why most companies fail in their digital transformation by only focusing on the upper layers of the model and how to truly transform your business into a future-forward organization.

Blockchain and Cryptocurrencies. From Hype to Reality to Disruption.

Blockchain technology is one of the most transformative innovations of our time. It is quickly disrupting a range of industries from finance to health care and, at the same time, one of the most talked about and hyped technologies. Explore the core concepts, debunk the myths and find out why the blockchain and cryptocurrencies shift the paradigm of transactions.

Digitization Decoded. Decipher the Secret Code Giving Companies Like Apple, Google or Uber Their Edge.

Revealing the underlying principles used by the leading tech companies to drive their digital strategy, you will learn the molecular structure of disruptive digitization and apply it to create new products, services, and business models which are ten times better, faster and cheaper.
