

DAN CHUPARKOFF

Technology leader with 30+ years at Google, McKinsey & Atlassian; expert in AI, innovation
and the future of work:

-
- A global technology leader with 30+ years of experience at Google, McKinsey & Company, and Atlassian
 - Known as the “understandable technology speaker,” simplifying complex AI and digital concepts for any audience
 - Helps organizations across all industries — finance, agriculture, healthcare, legal, manufacturing — adopt AI and transform operations
 - Combines deep product, engineering, and strategy expertise with engaging storytelling and practical frameworks
 - Trusted by Fortune 100 companies, CEOs, and leadership teams seeking clarity on AI, disruption and the future of work
-

Dan Chuparkoff is a global technology leader, innovation strategist, and keynote speaker with more than 30 years of experience at some of the world's most influential organizations, including Google, McKinsey & Company, and Atlassian.

At Google, Dan led teams building global tools and mobile services for billions of users. At McKinsey, he worked directly with executives across industries to design software and systems addressing the most complex business challenges. At Atlassian, he helped integrate multiple acquisitions and contributed to the company's evolution toward a multi-billion-dollar IPO.

Today, Dan is the CEO of Reinvention Labs, where he focuses on how humans and AI will shape the next era of productivity, creativity, and work itself. Widely recognized as the "understandable technology" speaker, he translates the complexity of AI, robotics, automation, and digital transformation into clear, actionable insights for leaders, teams, and non-technical audiences.

Dan works across all major industries — from finance and retail to agriculture, manufacturing, healthcare, legal, and real estate — helping organizations identify where AI creates value, how to prepare people for change, and what skills will matter most in the coming decade.

With a unique blend of technical depth, business strategy, and high-energy storytelling, Dan empowers leaders to stop reacting to disruption and start driving the future.

TEMAS

Dan tailors each of his presentations to the needs of the audience. He's not limited to the topics listed below; please inquire about other topics of interest:

- Artificial Intelligence & the Future of Work
- Innovation Strategy in the Age of Disruption
- Reinventing Teams, Processes & Culture
- Human + Machine Collaboration

- Cross-Industry Transformation & Digital Acceleration

PROGRAMAS

AI & the Future of Everything

A practical, engaging, and highly accessible keynote on how AI is reshaping every industry. Dan demystifies what AI truly is, what it can and cannot do, and where humans continue to lead. He provides a roadmap for organizations ready to leverage AI for growth, efficiency, and competitive advantage.

Innovation Unlocked: Building the Machine That Powers Change

Dan reveals why traditional innovation systems are breaking — and what the world's best innovators do differently. Drawing from his experience at Google, McKinsey, and Atlassian, he provides a proven model to accelerate ideas, empower teams, and create cultures built for speed and agility.

The Human + Machine Advantage

This keynote shows leaders how to design organizations where humans and AI work together seamlessly. Dan explains how to structure teams, roles, and processes for the AI era, and how to harness technology as an amplifier of human judgment, creativity, and impact.
